Shiwalik Public School ,Rupnagar

(CBSE board)

Year of completion: 2016

CGPA: 9.80/10

POSITIONS OF RESPONSIBILITY

Leader of my project team in College.

Head Boy of my school.

TRAININGS

Node Express And MongoDB

udemy, Online

Apr 2021 - Present

This course will me teach a lot about the backend. And make me a much better developer and designer.

React

udemy, Online

Jan 2021 - Feb 2021

This was a complete beginner to advanced course on react, taught by two expert instructors. I got hands-on experience while building clones of real-life projects like Spotify, Amazon, and Netflix using react.js, npm, and firebase.

JavaScript Advanced

udemy, Online

Oct 2020 - Dec 2020

This was a huge course that covered all the modern JavaScript concepts and I also made a few projects while doing the course. It taught me a lot about building, managing and deploying projects.

Machine Learning

Coursera, Online

Jun 2020 - Jul 2020

This course was taught by Andrew Ng co-founder of Coursera and one of the leading researcher in the field of Machine Learning and Artificial Intelligence.

HTML5 CSS3

udemy, Online

May 2020 - Jun 2020

I learnt about HTML and CSS in this course. It was an in-depth course and made me a better developer.

PROJECTS

Covid Tracker

Apr 2021 - Apr 2021

<https://covid19-90f4c.web.app/>

This web app tracks worldwide covid cases and can even separate them country-wise. This also shows the number of people recovered and deaths. Also, it shows a line graph to better visualize the data and a sorted list of countries by covid cases.

Flagow

Apr 2021 - Apr 2021

<https://itsflagow.web.app/>

It's again my original design. It's an interactive fun quiz game that tests your knowledge of flags, capitals, and currencies. This is just the first version and a lot more functionality will be coming to this.

Amazon Clone

Mar 2021 - Mar 2021

<https://e-clone-33ffe.web.app/>

This was my personal project. In which I made an exact replica of Amazon. Which even had user authentication provided by firebase and complete payment processing using stripe api. It had all the features like cart and ratings of the product.

FoodFiesta

Mar 2021 - Mar 2021

<https://itsfoodfiesta.web.app/>

This app is completely original. It is using spoonacular API to fetch the data. You can search recipes, find a random recipe, find food facts and jokes. I will be integrating it with tomato API to get info about local food places.

Spotify Clone

Jan 2021 - Jan 2021

This was my personal project. In which I made an exact replica of Spotify. Which even had user authentication provided by Spotify itself through their API.
